EDUCATION

Netaji Subhash Engineering College
B. Tech in Computer Science and Engineering
with specialization in AIML; (present) GPA: 8.53

Kolkata, India
August 2024 - June 2028

SKILLS SUMMARY

- **Languages:** C, C++, Python, SQL, JAVA,
- **Frameworks:** Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn.
- **Tools:** Excel, PowerPoint, Tableau, MySQL, SQLite, Adobe Photoshop and Premiere Pro.
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code.
- **Soft Skills:** Rapport Building, Strong Stakeholder management, People Management, Excellent communication.

WORK EXPERIENCE

Python Programming Intern | Oasis Infobyte | [VERIFY](#)

June 2026 – July 2026

- Developed 3 Python-based desktop applications including a Random Password Generator, BMI Tracker with data visualization, and an AI Assistant integrated with Ollama, using Tkinter for GUI development and implementing dynamic, user-focused functionality.
- Engineered data-driven applications using NumPy, Pandas, and SQLite for data processing and storage, and leveraged Matplotlib to visualize and analyze user metrics, including BMI trends over time.

AI and Prompt Engineering Intern | VaultofCodes | [VERIFY](#)

May 2025 – July 2025

- Completed hands-on tasks and problem statements in AI and Prompt Engineering, gaining practical exposure to Generative AI, LLM-based tools, and prompt design fundamentals as part of an internship conducted in collaboration with Google and AICTE.
- Applied structured problem-solving and prompt engineering techniques to analyze problem statements, craft and refine prompts, and evaluate AI/LLM-generated outputs for accuracy and relevance.

Student Intern | Edunet Foundation | [VERIFY](#)

February 2025 – March 2025

- Contributed to a group AI/ML project, “AI Resume Ranking System,” as part of the TechSaksham AI internship, applying AI/ML concepts to a real-world problem and collaborating on project documentation and implementation; project published on GitHub.
- Completed an industry-oriented AI internship, strengthening skills in AI/ML model implementation, data analysis, and structured problem-solving through mentor-guided, project-based coursework with Edunet Foundation, Microsoft, and SAP.

PROJECTS

Random Password Generator | [LINK](#)

June 2026- July 2026

- Developed a Python-based Random Password Generator with a Tkinter GUI, implementing customizable password length and character selection using Python’s random and string modules.
- Implemented secure password generation, input validation, and user-friendly functionality, strengthening skills in Python programming, GUI development, logic building, and application design.

Personal AI Voice Assistant (Ollama) | [LINK](#)

January 2026 - Present

- Developed a Python-based personal voice assistant using Ollama and a locally hosted LLM, integrating speech recognition, text-to-speech, and conversational AI for hands-free interaction.
- Extending the Ollama-based AI assistant originally built during the Oasis Infobyte internship into a voice-driven personal assistant, currently developing call-handling functionality on top of the existing Ollama backend, using Python libraries such as Whisper and gTTS, with a focus on privacy and offline AI capabilities.

AI Powered Resume Ranking System | [LINK](#)

February 2025 - March 2025

- Contributed to a group AI/ML project for automated resume ranking, applying AI/ML concepts and data processing techniques to evaluate resumes against job-related criteria.
- Collaborated on project implementation, testing, and documentation, gaining practical experience in AI/ML workflows, data analysis and problem-solving.

CERTIFICATES

Object Oriented Programming - Basics to Advance (Java OOP) | Udemy | [CERTIFICATE](#)

August 23, 2026

- Completed comprehensive Java OOP training covering core object-oriented principles, including classes, objects, inheritance, polymorphism, and encapsulation, from foundational to advanced concepts.

AI Skills Passport | EY and Microsoft | [CERTIFICATE](#)

June 01, 2026

- Completed EY and Microsoft’s global AI Skills Passport program, covering AI fundamentals, ethical AI use, and applied employability skills.

Python and Flask Framework Complete Course | Udemy | [CERTIFICATE](#)

May 07, 2025

- Strengthened Python development skills with focused training in the Flask framework for backend web application development.
-
